

ORIGINAL PAINT & VARNISH REMOVER

Nitromors Original Paint and Varnish Remover is ideal for those vertical applications due to its fast-acting non-drip formula. This product is safe for use on wood, metal and masonry. There aren't many solutions that Nitromors Original Paint and Varnish Remover can't defeat.

HOW TO USE

1. Shake thoroughly before use.
2. Spray liberally onto the surface or component from a distance of 15 to 20cm, ensuring a good coating.
3. Leave for up to 15 minutes to soften or dissolve the paint.
4. Once paint has blistered, apply a second coat. Agitate with a wire or nylon brush as appropriate. Leave up to 40 minutes. If dried out re-apply.
5. Remove blistered and softened paint with a scraper or a shavehook. In difficult areas use an old nylon toothbrush. Repeat as necessary. Wash off with detergent in cold water and a nylon scourer or use white spirit and wire wool to avoid raising the grain on fine or laminated woods. Allow to dry thoroughly and rub down with fine sandpaper or wire wool prior to refinishing.

■ Appearance	Off-white Viscous gel.
■ Specific Gravity	0.930 to 0.970
■ Viscosity	1000 to 2000 cps
■ Active Content % m/m	70 to 100
■ Flammability	Extremely flammable aerosol.
■ Composition Data	A thickened solution of a 1,3-Dioxolane, Acetone and Odourless Kerosene dispersed in Dimethyl Ether propellant.
